**Family Update:**

Thank you so much to all those who have been praying for our family. Last month Ashley got Typhoid fever and was hospitalized for about 3 days but she has completely recovered and is completely healthy again. Eden will be turning four on November 13<sup>th</sup>. She is growing like a weed and is always laughing. We are thankful that God has entrusted her to us.

The church is growing like crazy and I have been thrilled to see more and more people get involved and get excited about serving the Lord. People are getting saved so often that it has been a challenge to keep up with the discipleship of the new members but that seems like a good problem to have. We are working to train more leaders in the church to help with this ministry.

**Church Update:**

**Souls saved:**

Almost every week we are seeing more people get saved. Omar and his wife (in the top left picture) were Muslim before coming to our church. His wife visited our church after being invited by one of our members. I was able to visit them and share the gospel and both Omar and his wife accepted Christ as their savior. They have both been very faithful and excited about their new walk with the Lord. Omar was also able to get a new job so that he could provide for his family. It has been wonderful to see the Lord working and saving souls. Thank you so much to all who faithfully pray for us and support us!

**Prayer Requests:**

- Pray for the church plant, Victory Baptist Church of Zinguedesse
- Pray for those who were recently saved
- Pray for stability in the region in West Africa
